

THE CURE VIDEO ON DVD

GET THIS VIDEO FOR YOUR FRIENDS AND FAMILY TO ENLIGHTEN THEM ABOUT
THE CLARK PROTOCOL

The Video "The Cure" is an inter-view with Dr. Hulda Clark and contains the voices of other professionals working with the Clark protocol, as well as the experience of individuals with the Clark protocol, including former Massachusetts State Representative Nancy Caffyn.

The video has been available on tape. It is a wonderful introduction into the Clark protocol for new people but also worthwhile for the Clark aficionado.

To make it broadly accessible, I have bought the rights to the Clark video and we are producing the video on DVD. That allows us to make a considerably lower price for the video.

Because the video is such an excellent tool to introduce new people to the Clark protocol, I am making a very special price for 10 and 100 DVDs! That way it is an affordable give-away for your friends and family. Show them what you have been talking about!

Language or hearing impairment no longer have to be a barrier! The DVD is subtitled in English, and in four other languages: Spanish, German, French and Italian.

This is an on going offer. When **ordering online** on www.drclark.com, you can find this offer under "Important Products" and under "Books and Videos". There is an additional 2% discount for all online orders.

Yes, I would like to order the Cure Video. Please send me the following quantity of Cure videos:
